

Welcome to Maricopa's Blackboard

Maricopa's Blackboard is a group of Maricopa colleges that share a single course management system to deliver instruction on-line. These colleges include:

- Chandler-Gilbert Community College
- Estrella Mountain Community College
- Gateway Community College
- Glendale Community College
- Paradise Community College
- Phoenix College
- Scottsdale Community College
- South Mountain Community College

Campus representatives meet monthly as an end-user advocacy team to assist in system planning, growth and support. Recommendations are submitted to a CMS Executive Steering Team.

A 24x7x365 helpdesk is available to support students and instructors with basic needs. Complex functional issues are escalated to participating college instructional and technical training personnel. Technology issues are overseen by District Information Technology Services.

The creation, maintenance and management of individual courses are the responsibility of the instructors that use the system. This responsibility provides MCCCDC instructors subject matter discretion and presentation versatility while assisting college trainers and technical support staff the ability to deliver a high quality service.

The Maricopa's Blackboard Campus Teams are dedicated to providing the most successful student experience possible. Welcome to Maricopa's Blackboard!
