

Welcome to Maricopa's Blackboard

Maricopa's Blackboard is a group of Maricopa colleges that share a single course management system to deliver instruction on-line. These colleges include:

- Chandler-Gilbert Community College
- Estrella Mountain Community College
- Gateway Community College
- Glendale Community College
- Paradise Community College
- Phoenix College
- Scottsdale Community College
- South Mountain Community College

Maricopa's Blackboard was initiated to allow students greater flexibility in educational opportunities. Between work schedules, family obligations and friends, everyone has difficulty in scheduling time, so the convenience of being able to study anywhere at any time increases your opportunities for success.

Maricopa's Blackboard was designed to allow students who attend different campuses to use one course management system with one username (MEID). The single point of access, as you move between campuses, will assist you in managing your time and course work.

The Maricopa's Blackboard Campus Teams are dedicated to providing the most successful student experience possible. Welcome to Maricopa's Blackboard!
