

Firefox Settings Document

(PC and Mac)

Please Note: Mac OS X browsers, access preferences via the Application Menu (ex. Firefox>Preferences).

Enable Cookies: Tools > Options > Privacy > Cookies > select 'Accept cookies from sites' > click OK.

Enable Java: Tools > Options > Content > check the 'Enable Java' box > click OK.

Enable Javascript: Tools > Options > Content > check the 'Enable Javascript' box > click OK.

Advanced JavaScript Settings : Tools > Options > Content > Click the "Advanced" button next to Enable JavaScript > check the 'Change status bar text' box > click OK > click OK.

Enable Status Bar: View > Check 'Status Bar'.

Popup Blocker Settings: Tools > Options > Content > Click the 'Exceptions' button next to Block Pop-up

Windows > Add: Make sure at least one or all of following URL's are added:

- <https://maricopa.blackboard.com/>
- <https://maricopa.blackboard.com/webapps/login/>
- <https://ecourses.maricopa.edu/>
- <https://ecourses.maricopa.edu/webapps/login/>

> Click Allow > click OK.

Clear Browser Cache: Tools > Options > Privacy > Private Data > click 'Clear Now' button > click OK.

NOTATION: One issue that occurs with Firefox is *copying and pasting* from other locations into the VTBE doesn't always work. If you get an error that your browser won't allow copying and pasting then use EDIT > Paste menu functions instead of keyboard commands.
