

Internet Explorer 7 Setup for Blackboard

Step 1 - Install and/or update to the latest version Windows Internet Explorer (I.E.) with service packs. Leave all default settings except those described below.

Step 2 - Uninstall or turn off any and all second party pop-up blockers (e.g.: STOPzilla, PopSwatter, Google Toolbar, etc.).

Step 3 - Turn Pop-up Blocker off:

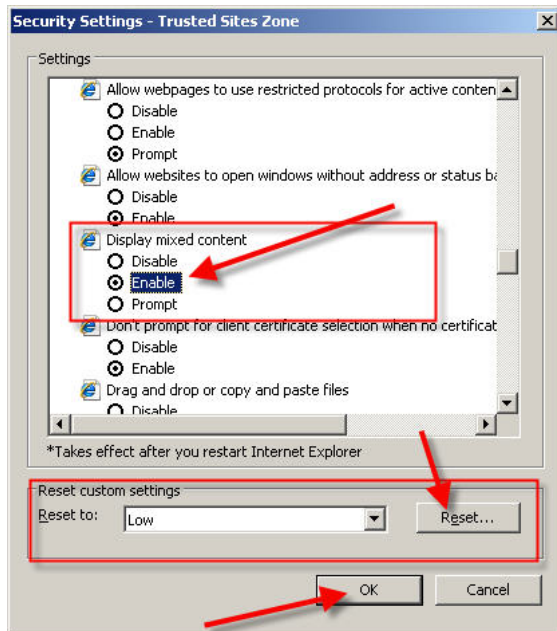

First select . Then mouse over . And click .

Step 4 - Click on  dropdown menu and select . In the  window select  tab. Inside the Security window click on the  icon and select  button. Then place at least one or all of the below Blackboard URL's into list of trusted sites and click add:

Here are list of sites:

- <https://maricopa.blackboard.com/>
- <https://maricopa.blackboard.com/webapps/login/>
- <https://ecourses.maricopa.edu/>
- <https://ecourses.maricopa.edu/webapps/login/>

Then click  button. Once back to  window select  button. Once in the Security Settings window scroll down the Settings menu until you see Display Mixed Content and select Enable. Then in the Reset Custom Settings menu select Low and click Reset and OK as shown below.

Step 5 - While still in **Internet Options** and in the **Security** area click on **Internet** icon. Then click the **Custom level...** button. You will now be in the **Security Settings - Trusted Sites Zone** window for **Internet**. Choose custom setting **Reset to:** **Medium** and click **Reset...** button, then **OK** button. Lastly select the **Apply** button and **Internet Options** window will close
