

Academic Performance of High School Students “2040” Report

The Maricopa Community Colleges, as well as all other community colleges and universities in Arizona, provide an annual report to the state legislature on the academic performance of recent Arizona high school graduates during their first year of higher education. This detailed report is an accountability tool, intended to help Arizona high schools monitor their students’ post-secondary success. Statistics are provided about each high school’s most recent graduating class, including the group’s average first term GPA, fall-to-spring persistence, and success in first English and math course.

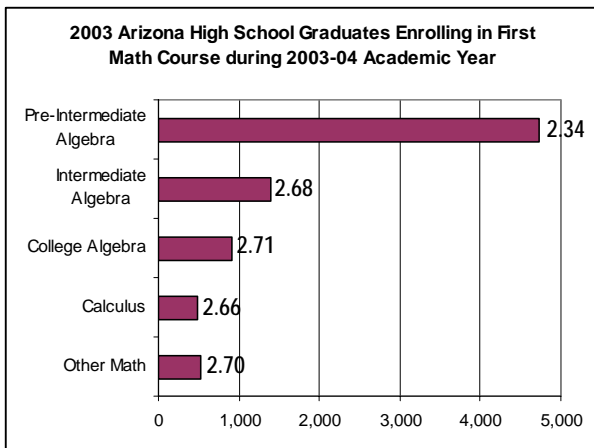

The number of recent high school graduates attending The Maricopa Community Colleges has risen in recent years, though the demographic profile of each group has remained fairly stable. The 2003 cohort is comprised of 3% American Indian, 3% Asian, 5% Black, 22% Hispanic, and 67% White. 53% of the cohort is female.

The average first-term GPA of students has remained constant during the last three years at 2.36. As a group, students generally perform better in their first English course than in their first math course.

More than half (51%) of the 2003 cohort enrolled in college-level English (ENG101) as their first English course during the 2003-04 academic year. A smaller percentage (15%) took pre-freshman English. By contrast, only 11% of the cohort enrolled in a college-level math course as their first math, with 39% of the cohort enrolling in pre-intermediate algebra. The percentage of students enrolling in pre-intermediate algebra has increased 4% since 2001 even though the overall percentage

of cohort students taking math during their first year has decreased slightly. These percentages suggest the level of preparedness of students entering The Maricopa Community Colleges.

Cohort average GPA is noted to the right of each bar.

The following page summarizes the data for all Arizona high schools and all Maricopa Community Colleges. The detailed report by high school and Maricopa Community College can be accessed at <http://mir.maricopa.edu/irdb/2040/index.html>.
