Number Enrolled/Percent Enrolled (Your High School/All Arizona High Schools)

These statistics are based on the number of students who enrolled in an English or math course at the community college in the summer, fall, or spring terms immediately following high school graduation. The percent distribution indicates where your students entered the curriculum as compared to other Arizona high school graduates. The percentages are computed based on the total number of high school graduates enrolled at the community college (see Summary Characteristics); therefore, the percentages do not sum to 100 percent. The difference is due to those not taking any English or math during the summer, fall, or spring terms following graduation from high school.

Average Grade – This is an average of grades received by your graduates in the first English or math course attempted.

Percent 'C' or Higher (Your High School/All Arizona High Schools)

This is the percent of your graduates who received a grade of 'C' or higher in the first English or math course attempted.
