

MARICOPA COMMUNITY COLLEGE DISTRICT FY 2003-04 Dual Enrollment Tracking Summary

In FY 2003-04, the Maricopa Community College District served 11,052 students in the Dual Enrollment Program. Of those students, 5,973 (54%) were academically ranked as seniors. In the year following high school graduation, 2,181 (37%) of this cohort enrolled at one of the ten Maricopa Community Colleges. Arizona statute requires a comparison of students' Dual Enrollment GPAs while still enrolled in high school with their subsequent GPAs one year after entering higher education and completing college courses.

- 95 percent of high school seniors in the Dual Enrollment Program had a GPA of C or better for all the courses they took in Academic Year 2003-04. After tracking these students for one year, 86 percent had still maintained a GPA of C or better in their collegiate work.
- 95 percent of the seniors who completed Academic courses in Dual Enrollment had a GPA of C or above. These same students were tracked the following year taking subsequent academic courses, and 88 percent had a GPA of C or better.
- Of those seniors taking an Occupational course in their high school Dual Enrollment Program, 96 percent had a GPA of C or better. One year later, when these students completed successive coursework at a Maricopa Community College, 86 percent had a GPA of C or better.
- The four-year graduation rate at the 75 high schools offering Dual Enrollment courses through the Maricopa Community Colleges in Academic Year 2003-04 was 83.5 percent. This number is 9.5 percent higher than the Arizona Graduation rate of 74.0 percent, and 9.4 percent higher than the Maricopa County rate of 74.1 percent.
