Join us for Moderator Training October 31, 2008

Brought to you by the Maricopa Community Colleges' Center for Civic Participation, this moderator training uses the National Issues Forums (NIF) model. NIF focuses on convening public forums for the consideration of public policy issues.

These forums provide an opportunity for citizens of diverse views to join together to deliberate and dialogue in a reasoned, nonpartisan manner. This allows people to get past heated debate and instead, consider the issue from multiple angles and find *common ground for action*.

Whether you are interested in convening public forums and helping citizens discuss difficult issues; learn a new skill set or enhance existing facilitation skills, or interested in incorporating public deliberation into your workgroup, classroom, committee or community—join us for this unique training.

Participants who agree to help moderate a community forum on Affirmative Action held on September 5th may be eligible to have their workshop fee waived. At the conclusion of the training session, all participants will be able to sign up to co-moderate any number of community issue forums to be held through the end of the year
