

CONSENT AGENDA ACTION ITEM

Governing Board Agenda

Meeting Date: November 25, 2008

<u>Item Number</u>	<u>Item Title</u>	<u>Responsible Agents</u>
	College Identity Management System	Darrel Huish

Recommendation

It is recommended that the Governing Board approve the expenditure of \$1,280,990 for the implementation of a College Identity Management System. This includes hardware, software, training and consulting services. The hardware and software will be purchased through IT Partners under the City of Tempe Contract #T05-079-01. Consulting Services will be provided by Ensynch. Training Services will be provided by Interface Technical Training. The project will commence in December of 2008 with Phase 1 being completed in July 2009. Phase 1 includes (3) pilot colleges (TBD). Phase 2 of this project will extend services to all 10 colleges and Skill Centers. Phase 2 will be completed in Fall 2009.

Justification

The existing EIMS (Enterprise Identity Management System) is meeting our authentication needs for Enterprise Applications. The colleges have the need to extend the functionality of this system to serve their local communities. This project will build on the existing EIMS investment and provide hardware and software enhancements to support a common set of credentials for local college authentication and access to resources. This project is part of an effort to manage risks associated with Enterprise UserID and Passwords, while meeting college requirements for consistency, access to Enterprise sign-on credentials and improved student, faculty and staff experience.
